DEFINITIONS:

Improvement Permit (IP)

An improvement permit shall include:

1. For permits that are valid without expiration, a recorded plat or, for permits that are valid for five years, a site plan.
2. A description of the facility the proposed site is to serve.
3. The proposed wastewater system and its location.
4. The design wastewater flow and characteristics.
5. The conditions for any site modifications.
6. Any other information required by the rules of the Commission.

Authorization for Construction (AC)

The Authorization for Construction shall be issued by an authorized agent for the installation of a wastewater system when it is found that the Improvement Permit conditions and rules in this Section are met. The Construction Authorization shall contain conditions regarding system type, system layout, location, and installation requirements. It shall be the legal responsibility of the property owner to ensure that a valid Authorization for Construction is issued prior to the construction or repair of a septic system and the construction, location, or relocation of a residence, place of business, or place of public assembly.

Private Drinking Water Well (PDWW)

A private drinking water well as defined in G.S. 87-85 (10a)
