Specifications for Fire Alarm System

NOTE: Firm shall respond to each category below. Any "NO" responses or deviations shall be explained in the space provided. If complies, put a check mark in the appropriate box.

This proposal shall include the installation of an analog addressable manual fire alarm system, plus options for adding smoke detection in the hallways, offices, mechanical and storage rooms, plus heat detection in the kitchen and attic spaces. Fire protection for the future license agency area must also be proposed.

QTY	DESCRIPTION	COMPLIES	IF NO: DEVIATES AS NOTED
	Base Proposal:		
1	An analog addressable manual fire alarm system, including fire pull stations at each required exit, one smoke detector at the fire alarm panel, plus horn/strobes and strobes throughout the building (excluding the license agency suite), to comply with the fire notification requirements of the National and North Carolina Fire Code.		
	System shall integrate the existing burglar alarm components with the proposed fire alarm system. Once the components are tied together, the burglar alarm system shall have the ability to be expanded to cover the entire building.		
	Additions to be Proposed to Base Fire Alarm System:		
10	Ten (10) smoke detectors to be installed in hallway areas.		
4	Four (4) heat detectors in the kitchen.		
3	Three (3) heat detectors in attic spaces.		
20	Twenty (20) smoke detectors to be installed in office spaces.		
7	Seven (7) smoke detectors for the mechanical rooms and storerooms.		
1	One (1) pull station for the license agency suite.		
3	Three (3) horn/strobes for the license agency suite.		
2	Two (2) strobes for the license agency suite.		
1	One (1) remote fire command center for the license agency suite.		
4	Four (4) license agency hall and room smoke detectors.		
2	Two (2) license agency storage and mechanical room smoke detectors.		

	Fire System Proposal shall include:		
	Alarm initiation components.		
	Alarm notification appliances.		
	Cabling and any other miscellaneous materials.		
	The cost of installation labor.		
	Fire Alarm Installation Permit fee from Macon County, NC.		
	Full one year warranty on materials and installation.		
	Annual inspection and test service information.		
	Extended repair service option information.		
	PROFESSIONAL ENGINEERING SERVICES:		
	This installation will comply with a ruling issued by the North Carolina Board of Examiners for Engineers and Surveyors requiring that all fire systems installed in North Carolina have engineering design drawings sealed by a Professional Engineer, registered in the State of North Carolina, with specialized training and experience in the field of fire alarm system design.		

******NO PARTIAL BIDS OR SUBSTITUTIONS WILL BE ACCEPTED******

1. This Invitation for Quotes is subject to the availability of funds for this Project.
2. Macon County accepts no responsibility for any expense incurred by the bidder in the preparation and presentation of a quote. Such expenses shall be borne exclusively by the bidder.
